Empowering businesses to install solar panels

FREE Solar Assessment

Does solar make commercial sense for your business?

If you're using electricity during the day, the installation of solar makes financial and environmental sense.

- ✓ Recover your finance or investment in as little as 4 years
- ✓ Provide shared benefits for owners and tenants
- ✓ Attract future tenants or help retain existing ones

Contact Council for a FREE desktop solar assessment.

All we need is a copy of your latest bill and electricity usage data, and we can conduct the assessment remotely. Contact us to find out more.
